

# MOULDINGS ONE

## Arts and Crafts Crown

8421 [13/16 x 1-1/8]

5624 [5/8 x 1-1/2]

Crown moldings from the Arts and Crafts style feature subtle curves or bevels, but these are usually understated in keeping with the overall simplicity of the design. Compared to baseboard, they often feature a wider profile and a more pronounced projection from the wall.

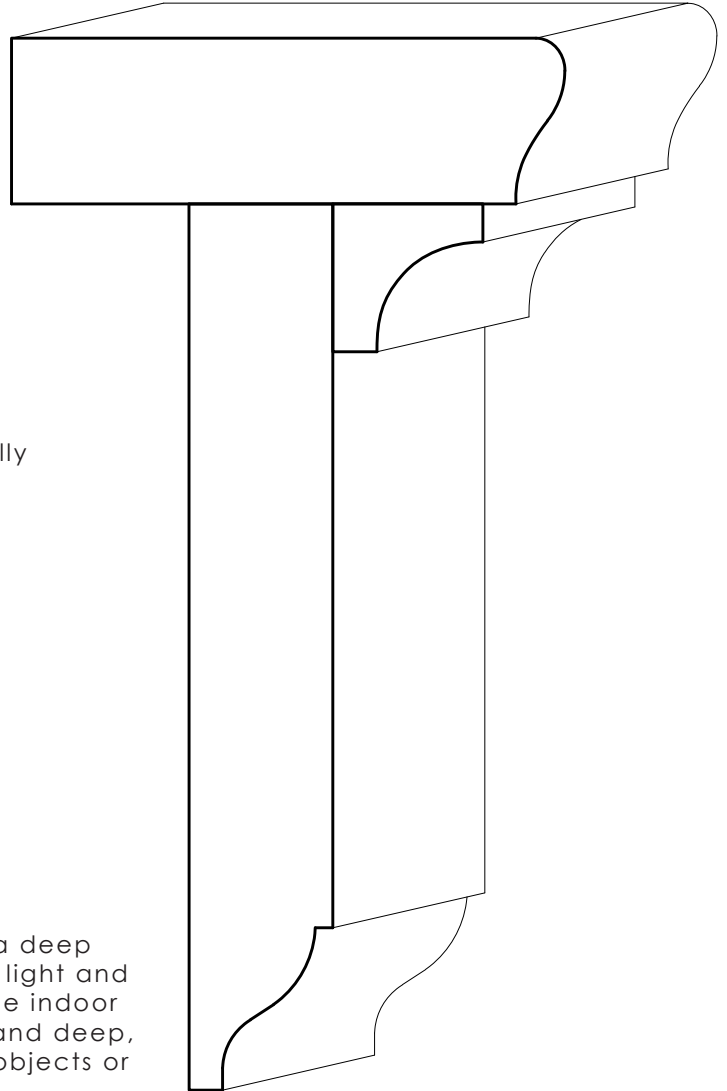

## Arts and Crafts Window Sill

9008 [7/8 x 2-1/4]

3101 [3/4 x 3/4]

2327 [3/4 x 4-3/8]

Arts and Crafts style window sills feature a deep profile, which helps provide more natural light and create a sense of connection between the indoor and outdoor spaces. They are also wide and deep, providing a convenient place to display objects or to sit and enjoy the view outside.

# MOULDINGS ONE

## Arts and Crafts Casing

7142 [1 x 2-1/16]

1559 [5/8 x 3-13/16]

Like the other decorative elements found in Arts and Crafts homes, door casings are designed to complement the architecture of the building and showcase the natural beauty of the wood. They are substantial, with a wider profile than the moldings found in contemporary Victorian-era homes.

## Arts and Crafts Baseboard

5215 [3/4 x 1-1/16]

S4S [5/8 x 1-1/2]

Arts and Crafts baseboard typically features a rectangular or square profile, with clean, simple lines and little or no embellishment. The focus is on the quality of the wood and the precision of the craftsmanship, rather than ornate detailing.
